Rates are subject to change without notice. APY assumes dividends remain in the account until maturity. If you close any share account before dividends are paid, you will not receive the accrued dividends for that period. A penalty will be imposed for early withdrawal regarding certificates. Additional fees may or may not be applicable, however if they are applicable, they could reduce earnings on the account. Rates revised June 1, 2021. *Promotional rates subject to availability and may be canceled at any time without notice.
